WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International	application	No.
, (U)	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	

Box No. 1 Basis of this opinion 1. With regard to the language, this opinion has been established on the basis of: the international application in the language in which it was filed a translation of the international application into which is the language of a translation furnished for the purposes of international species (Rules 12.3(a) and 23.1(b)). 2. With regard to may nucleotide and/or matrix acids sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a type of material associated listing associated in the international application and necessary to the claimed invention, this opinion has been established on the basis of: the command of material associated in the international application as filed in electronic form contained in the international application in electronic form furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequency or additional copies is identical to that in the application as tiled or does not go beyond the application as (fled, as appropriate, were furnished. Additional comments:	`	INTERNATIONAL SEARCHING AUTHORITY	PCT/US04/42402
the international application in the language in which it was filed a translation of the international application into which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)). With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a. type of material a sequence listing table(s) related to the sequence listing b. format of material on paper in electronic form c. time of filing/furnishing contained in the international application as filed. filed together with the international application in electronic form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more then one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed as appropriate, were furnished.	Box No	o. I Basis of this opinion	
the international application in the language in which it was filed a translation of the international application into which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)). With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a. type of material a sequence listing table(s) related to the sequence listing b. format of material on paper in electronic form c. time of filing/furnishing contained in the international application as filed. filed together with the international application in electronic form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more then one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed as appropriate, were furnished.		•	
a translation of the international application into which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)). 2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a. type of material a sequence listing table(a) related to the sequence listing on paper in electronic form c. time of filting/furnishing contained in the international application as filed. filed together with the international application in electronic form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed, as appropriate, were furnished.	1. With		
international search (Rules 12.3(a) and 23.1(b)). 2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a. Type of material a sequence listing table(a) related to the sequence listing on paper in electronic form c. time of filing/furnishing contained in the international application as filed. filed together with the international application in electronic form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed, as appropriate, were furnished.	☒		
invention, this opinion has been established on the basis of: a. type of material a sequence listing table(s) related to the sequence listing b. format of material on paper in electronic form c. time of filing/furnishing contained in the international application as filed. filed (ogether with the international application in electronic form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.		a translation of the international application into which is the langinternational search (Rules 12.3(a) and 23.1(b)).	mage of a translation furnished for the purposes of
a sequence listing table(s) related to the sequence listing b. format of material on paper in electronic form c. time of filing/furnishing contained in the international application as filed. filed (ogether with the international application in electronic form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	2. With inven	regard to any nucleotide and/or amino acid sequence disclosed in the in tion, this opinion has been established on the basis of:	ternational application and necessary to the claimed
